

## WHITE/SILVER — DUPONT™ TYVEK® AIR CARGO COVERS

### Advanced protection against temperature excursions

According to IATA research, nearly 60% of temperature excursions occur during tarmac delays. DuPont™ Tyvek® Air Cargo Covers are used to protect a wide variety of healthcare products worldwide including: controlled room temperature (CRT) and 2° to 8° pharmaceutical products, active pharmaceutical ingredients and chemicals, and medical devices.

### Product features

- 
**Breathable**  
 DuPont™ Tyvek® is an exceptional non-woven material. It allows oxygen to reach your goods, extending product life.
- 
**Water Resistant**  
 Tyvek® Air Cargo Covers provide improved protection from heavy rain and hail.
- 
**Unique Reflective Performance**  
 The reflective properties ensure your shipments are shielded from heat, cold and solar radiation – keeping products naturally cooler.
- 
**Lightweight**  
 Extremely compact and lightweight; easy to apply, remove and store, weighing only 2.0 – 4.4lbs.
- 
**Fire Regulations**  
 The material passes aviation flammability requirements of FAR/JAR/CS 25.853(a).
