

Complies with Time & Temperature Sensitive Cargo Regulations

WHITE/WHITE — DUPONT™ TYVEK® AIR CARGO COVERS

Advanced protection against temperature excursions

According to IATA research, nearly 60% of temperature excursions occur during tarmac delays. DuPont™ Tyvek® Air Cargo Covers are used to protect a wide variety of healthcare products worldwide including: controlled room temperature (CRT) and 2° to 8° pharmaceutical products, active pharmaceutical ingredients and chemicals, and medical devices.

Product features

Breathable

DuPont™ Tyvek® is an exceptional non-woven material. It allows oxygen to reach your goods, extending product life.

Water Resistant

Tyvek® Air Cargo Covers provide improved protection from heavy rain and hail.

Unique Reflective Performance

The reflective properties ensure your shipments are shielded from heat, cold and solar radiation – keeping products naturally cooler.

Lightweight

Extremely compact and lightweight; easy to apply, remove and store, weighing only 2.0 – 4.4lbs.

Fire Regulations

The material passes aviation flammability requirements of FAR/JAR/CS 25.853(a).

'White/White' version

The standard version of the Tyvek® Air Cargo Cover

- ⊕ Easy to handle and simple to store
- ⊕ Reduces airfreight volume
- ⊕ Compliments active systems to mitigate extreme weather conditions

Visit our website to see a video showing quick and easy application of the cover.

Benefits

- ⊕ Extend your cold chain break protection by hours
- ⊕ Ideal for controlled room temperature shipments
- ⊕ Strengthen or de-cost your 2° to 8°C cold chain design
- ⊕ Validated for use by manufacturers in EU GDP applications
- ⊕ Enhance shipment security with tamper-evident installation

Threats addressed

- ⊕ Solar Radiation
- ⊕ Ambient Temperature Extremes
- ⊕ Physical Hazards
- ⊕ Harmful Gases & Vapours
- ⊕ Theft & Security

Contact AmSafe Bridport today for further information and installation instructions.

GDP compliant design

Tyvek® Air Cargo Covers have been validated by pharmaceutical manufacturers in applications subject to revised European Good Distribution Practice (GDP) guidelines.
